### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marc Frechette on 11-11-05.

The application has been amended as follows:

1. Claim 1, lines 13-14: "a heating element disposed on at least one of the jaws and located between the pair of jaws" has been deleted.
2. Claim 5, lines 16-17: "a heating element disposed on at least one of the jaws and located between the pair of jaws" has been deleted.
3. Claim 6, lines 12-13: "a heating element disposed on at least one of the jaws and located between the pair of jaws" has been deleted.
4. Claim 1, line 11: -- a heating element disposed on at least one of the jaws and located between the pair of jaws;-- has been inserted after (as a separate limitation) "distal end of the catheter".

Art Unit: 3739

5. Claim 1, line 13: -- without the heating element, said snare cable -- has been inserted after "cable".

6. Claim 5, line 14: -- a heating element disposed on at least one of the jaws and located between the pair of jaws;-- has been inserted after (as a separate limitation) "distal end of the catheter".

7. Claim 5, line 16: -- without the heating element, said snare cable -- has been inserted after "cable".

8. Claim 6, line 10: -- a heating element disposed on at least one of the jaws and located between the pair of jaws;-- has been inserted after (as a separate limitation) "distal end of the catheter".

9. Claim 6, line 12: -- without the heating element, said snare cable -- has been inserted after "cable".

The following is an examiner's statement of reasons for allowance: **Claims 1-6 are pending. Claims 1,5, and 6 are independent.** The Examiner's Amendment above has obviated the remaining argument that had impeded allowance. Independent claims 1,5,6 now all disclose a device (figure 3) with jaws (5,6) with a heating element (17)

Art Unit: 3739

**separate** from a snare cable (7). On the other hand, the Chu reference (6,010,512) disclosed a snare cable that was **integral** (electrically continuous) to device jaws with a heating element (see figure 5). Note: claims 5 and 6 are method claims, which use the allowable claim 1 structure.

The instant application is a continuation of USPN 6,616,659, in which the method of use for the invention depicted in figure 3 is patented. Language toward apertures and rotatability not taught or suggested in the prior art (by Chu), as well as not found in the instant application's claims, is found in the lone-patented claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J. Vrettakos whose telephone number is 571-272-4775. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on 571-272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
